

Dear Mr. Sam Altman

I am writing to apply for the AI prompt developer position in the Chatgpt division of OpenAI. I have more than 5 years of experience as a NLP engineer and find my professional expertise align closely with the vacancy in your job advertisement.

In my previous role, I proved to be efficient, enthusiastic and strong leader. I led my team to fine tune Gemini models at Google according to the vast data sets available as a part of natural language processing. OpenAI would benefit from my skills in the following areas :

- Strong work ethic and leadership skills.
- 5 years of experience as a ML engineer.
- Strong hold in NLP processing.

I believe OpenAI is a disruptive platform that would inspire generations to come and so my expertise will help ensure we are in the right path.

Thank You
